

ABOUT OUR COMPANY

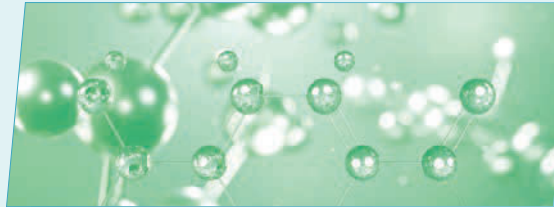

Levobio Limited is a pioneering force in the dental and medical industries, specializing in the development of BPA-free monomers for various applications.

Our innovative monomers are specifically designed for dental and medical use, addressing concerns related to both health and the environment.

By offering BPA-free monomers, we ensure the safety and well-being of patients while delivering high-quality materials for dental sealants, clear aligners, dental casts and other medical applications. Their dedication to advancing monomer technology contributes to the transformation of healthcare in a sustainable and responsible manner.

OUR SERVICES

✔ Monomer Synthesis with High Purity

✔ Customized Solutions for Your Industry: Designing Perfection Together

✔ 3D Printing Resin and Raw Material for Dental Applications

**Monomers for a healthier,
more sustainable future.**
